NEW YORK CITY CHARTER—INQUIRY INTO THE PROPRIETY OF DISCHARGING CRATAM CANAL OFFICE-HOLDES—APPORT OF THE CAMAL AUDITORS—ROCHESTER CLAIMS, ETC.

ALBANY, Feb. 13, 1856.

ALBANY, Feb. 13, 1856.

In the Senate to-day Mr. Breoks presented a bill proposing to amend the charter of the city of New York. It is the bill prepared by the aldermen. He remarked, he did not approve all its provisions, and in the source of a day or two should present the amendments proposed by the Board of Councilmen. By extracting the best provisions contained in both projects, he thought the charter cound be so amended as to conduce to the better covernment of the city.

charter could be so amended as to conduce to the better government of the city.

Quite a little flare up took place between Senators Upbam and Brooks upon a resolution offered by the latter, saking the opinion of the Canai Brard as to the propriety and interest to the State passing a law dispensing with the services of canal superintendents. The discussion was pert, lively and interesting. Mr. Upham wanted no information.

Still, a majority decided in favor of saking for the information.

Mr. Arthur Woods appeared in his seat in the House this nowing, having recovered from his recent illness.

this norming, having recovered from his recent illness.

The canal appraisers sent to the Senate their annual report. This branch of the canal department is becoming one of its most interesting features, on account of the During the last year there have been five hundred and eighty-eight new claims preferred, amounting in the aggregate to \$1 164,817 46; 189 of the above claims have been heard, and awa do seen made in one hundred and forty-seven cases of \$30 Cl4 80, out of claims of \$206,871 62. All these arise from injuries sustained, fancied or real, from the enlargement of the canala. A law of the last reserion authorized the board of appraisers to take testimony and mave awards in the well known Rochester cases. The committee any, "Much of the time of the present board ass been occupied in the taking of testimony and have awards in the well known Rochester cases. The committee any, "Much of the time of the present board ass been occupied in the taking of testimony and hearing the large claim of the owners of hydraulis power in the city of Rochester, for the diversion of the water of the Gaussee River from their mills by the State, to supply the Eire and Gennese Valley canala. The act required us to complete the investigation, and make up the awards by the first day of October last; but as they were not submitted un'il about the first of December, it was impossible to comply with that part of the statute. The claims are large, amounting to \$238,859 85, and many important questions of law and fact are involved in their decision." The Roard promise a special report in these famous Rochester cases, in the course of a few days. Now, as the law imperatively commanded them to close up the matter by the last day of October, it is question able whether the appraisers were authorized to take up the subject subsequent to that period. The Canal Board were instructed to revise and decide by the 31s; of Pecember, and the sutire proceedings presented to the Legislature at the opening of the present session. Have the appraisers obeyed the legislature mandate?

It has been rec umenced by high authority that the State should empley standing counsel to defend the treasury before the Board of Appraisers. This they emphatically condemn. In these stone hire increase of claimants for canal damages. Ouring the last year there have been five hundred and

REW YORK LEGISLATURE.

ALBANY, Feb. 12, 1856. Mr. Brooks presented a memorial from New York mershante, for the return of the head money and hospita noney paid by them. Also, a petition for the proper atrangement and classification of historical papers now stowed away among the manuscripts of the L gislature. Mr. Noxon reported favorably the bill to enable Notaries Public to take the acknowledgment of deeds and morr-

the city of New York. It is the bill submitted to the

the city of New York. It is the bill submitted to the New York delegation by the Aldermen.

Mr. Brooms said he cid not favor the bill as it is, but would salvase to the committee the proposition from the Beard of Councilmen, and hoped to be able to make an acceptable charter from the two.

Mr. Stancer in ordered a bill for the better preservation of notices of its pendicus in New York.

Mr. Brooms introduced a resolution calling upon the Canal Board for information as to what would be the effect, in their opinion, of the abolishment of the office of Canal Superintendent.

Mr. Brooms supported it.

The resecution was adopted, by ayes 14, nays 11.
Under the getteral order nothing of interest was done.

The bill incorporation the Homenum Inter Occasion.

Under the general order nothing of interest was done.

The bill inc rporating the Honduras Inter-Oceanic Steam and Railway Company was considered Amendments prevailed limiting the rereasal Rability of members for debts contracted by the corporation, which are to be paid within two years, and providing the universal the company expend one million dollars within two years the act of incorporation shall be void. The bill was then ordered to a third reading.

The bill incorporating the Turnverein of the city of New York was also ordered to a third reading, also, the hill appropriating money for the establishment of an agricultural college.

The Comptroller sent in a communication stating the amount appropriated out of the United States deposits fund for the use of the colleges and universities in the State, since 1840. It amounts in the aggregate to \$259,800.

The annual report of the Canal Appraisers was received.

REPAYMENT OF HEAD AND HOSPITAL MONEY.

Mr. BROOKS presented, in the Senate, the following periods:

TO THE HON, THE LEGISLATURE OF NEW YORK:-

Air. BROOKS presented, in the Senate, the following petition—
To THE HOW. THE LEGISLATURE OF New York:—
Your petitioners respectfully represent that they are merchants, engaged in business in the city of New York. and have been thus engaged for many years past. That during this period they nave paid to the State various sums of money, from time to time, as head money and hospital money, for cabin and steerage passengers, and others, under various laws of the State, walon were in existence previously to the institution of the Commissioners of Engignation. That various other merchants in said city, during such period, also pad to the State large sums of money as head and hospital monies; but, at the time, protested against such payments claiming that the various State laws imposing such tax were void; that by a decision of the Supreme Court such laws have been declared to be unconstitutional; and your petitioners further show that the Legislature, by chapter 634 of the Laws of 1851, directed the re-rayment of the monles to such persons as had paid them under protest, and that as your petitioners are inturned and believe, the greater part of such monies received under protest have been repaid; and your petitioners further show that unwilling to obstruct the Legislature in its action, or to refuse obedience to its emactments they freely paid such moneys which have been used by the State for its own purposes; and respectfully submit that having conformed to what was in appearance a valid law, but what was in tact a void enactment, your petitioners ought to receive at least as much consideration from the Legislature as has been exhibited to those who refused obedience to the forementioned acts, and by whose efforts their invalidity was acjudged. To these last the State has returned the moneys paid. For these reasons, and particularly that the State has recognised the principle and justice of repaying like moneys to those who had less claim on its consideration, your petitioners pray that the moneys offected from them

The petition is signed by numerous leading merchants in New York.

Mr. STENCER'S act for the better preservation of notices of lispendens in the city and county of New York provides that the clerk of the city and county shall record all such notices in books to be kept for that purpose, and shall receive therefor the sum of five cents per line.

Mr. NOXON'S bill in relation to notaries public provides that they shall have power to take proof and acknowledgment of conveyances of real estate, and of the discharge of mortgages, and the same power to administer on the and take affidavita as commissioners of deeds. Such conveyances and discharges, so acknowledged and proved, shall have the same force and effect as if proved and asknowledged before a commissioner of deeds. and asknowledged before a commissioner of deeds.

It claims have been disposed of as not within the jution of the Board of Appraisers, upon which the
aggregate stay that much the larger portion of the

568 new claims are for alleged damages from the sen-struction of the Eric canal enlargement and the Oswaro

both the State and claimant requires that the work should be completed along the line of the canal before the appraisals are made, because the route is frequently changed, and instances have occurred where damages have been assessed for land appropriated by the State for canals, and parties paid therefor, where the appro-priation has been abandoned in consequence of a change of the line.

ALBANY, Feb. 12, 1856. This is general order day, and the proceedings are de-

In the Assembly on Saturday, the bill to enable the Supervisors of New York to raise money by tax being under consideration, Mr. Foot, of Ontario, addressed the

In the Assembly on Saturday, the bill to enable the bupervisors of New York to raise money by tax being under canadderation, Mr. Foot, of Ontario, addressed the House as follows:

I move that this bill, being the Tax bill for the city of New York for the year 1800, be referred to a special committee, consisting of two members from the city of New York and three members from other parts of the State. Having passed eighteen years of activalite in the city of New York and productive property origin malay thereoghere, Broadway, where I pass a portion of my time. I have a right to be heard, and a daty to perform on all measures affecting her welfare. Our commercial metropoles is identified with the character, interests and preparity of the State. His government has become a by-we'd and reproach throughout the State and country. Until the last twelve or fifteen years, executive and legislative offices in the city were deemed honors by all, and une but men of the highest character were considered worthy of them. Then the manness of the city were commentally managed. With a population, in 1845, of 31,000, the whole amount of tax raised was somewhat less than 32 000,000. This year, with a population of 630,000, the city government asks the Legislature to allow it to raise by tax over six and a haif millions of dollars. The amount is continued the starting. A request to the sovereign power of the State tity, it sakes, to meet the expense of the city accomment asks the Legislature to allow it to raise by tax over six and a bail million and though the starting and though the starting and though the starting and the startin

Obio Legislature,

A MEMORIAL TO DISSCLVE THE UNION—THE LEGITIMATE FRUITS.

[From the Unio Staceman, Feb. 9]

We first had Gov. Chase's mangural. We next had Mr. Reliey's murderous speech in the Senate, which male the abolitionists delare that "that went further than we ever thought of going." We thirdly, had Gov. Caase's war message. Then followed Mr. fodd's resolution to raise "five regiments" for war purposes, as fo lows:—

Whereas, it is a matter of general noteriety that Kansas Territory is being invaned from time to time by hordes of hostile ruffians, who are plundering and destroying property, putabering the innocent inhabitants, in the most cruei and wanton manner, and setting at open defiance all those rules and principles which ought to govern the intercurse of man with mar; and whereas the frecultive of the United States has been appeared to in vain for protection—therefore,

Resolved, That it is the duty of the State of Ohio, in the exercise of its "popular sovereignty, "through its General Assembly, to raise, atm and equip five regiments of volunteers; to provide all the necessary provisions, munitions and pay for six months' service in Kansas; to preserve the peace and protect the settlers from the depredations of the land pirates who infest that Ferritory.

And now follows a memorial from Columbiana county,

tions of the land piraies who infest that Ferritory.

And now follows a necuorial from Columbiana county,
at the legitimate fruits of this intensifying of public sentiment to dissalve the Union.

On this proposition for a dissolution of the States, pretty much all the time of the H. use was taken up yestercay. The memorial is as follows:—

To THE SPEAKER OF THE HOUSE OF REPRESENTATIVES OF THE
STATE OF OTHO:—

STATE OF DIRECT.

Your memorialists, in behalf of the Western Anti-Savery Society, respectfully represent, that in accordance with the right of the people, asserted in the Beelaration of American Independence, and reitera's die 2d section of cur Bill of Rights, to alter, reform, or abblish the government under which they live whenever they esteem such change meet likely to affect their safety and happiness, we do most earnestly solicit you decline entering into any election for Scenator of the United States; to resend the laws which regulate the election of members of the House of Representatives of the United States, and electors for President; to provide for an amenoment of the constitution of Ohio, which shall repeal the 7th section of the 15th article, and forbid all State officers to take an oath to support the constitution of the United States, with such other measures as, in your wisdom, may appear expedient to effect a posseful withdrawal of Ohio from the Federal Union, for the following, among other reasons.—

1. Because the Federal government has signally falled to afford protection to the cliters of Ohio, in a large portion of our country, leaving their enjoyment of "life, liberty and property" to be secured—if at alt—by other means than the laws of the general government.

2. Because by the provisions of the constitution of the United States the physical and pecuniary power and moral influence of every critice of Ohio whe exercises the elective tranchine in placed and used for the purpose of holding four millions of human beings in the condition of chattel slave.

3. Because by the constitution we are forbidden to provide for the protection and defence of rigitive slaves who seek an asylum within our borders.

4. Because of the mean of the constitution of the rights of man, or regard for the principles of human beings in the condition of a cree people, men whose daily lives give the most unquestionable assurance that they have no tran provide of the proposition of the signal of the protection of the

LYNGH LAW IN MISSISSIPPI.—On the 22d tills, at Bay of St. Louis, in Hancock county, Mississippi, a negro man, owned by Mr. Lampkin, murdered and harfuly multipleted his overseer, Mr. Samuel Watson, with an are, in the presence of all the negroes in the field. He then field to the woods. In twenty four hours after the deed he was expired, carried to the spot where the our descriptions and their hargest by the process.

Twede and Commerce of the New York Camals.

[From the Albany Journal, Feb. 11.]

The following comparative statement of the business of the canals presents some features worthy of notice. In the table of the products of animals, the figures show a falling off in port equal to 68,576 barrels; bason, 8,772,000 lbs.; lard, tailew, &c. 7,346,000 lbs.; and an increase in choses of 2,832,000 lbs.; butter, 1,836,000 lbs.; and weed, 1,106,000 lbs. With the exception of the latter, the market value of all the articles named have ruled high the greater part of last season, and during the fall our restroads were taxed to their utenest capacity in the conveyance of the articles above named. Up to the commencement of the fall trade, the reseipts of flour were far behind those of the previous season, but the shipments afterwards were more liberal, and the result shows an increase of 40,703 barrels. The same can be said of wheat, for the figures show an excess of 1,802,466 bushels. By reducing the wheat to flour, we have an excess of the latter over last year of 421.195 barrels. The receipts of rye over last year of 421.195 barrels. The receipts of rye over last year of 421.195 barrels. Excess of the latter over last year of 421.195 barrels. Excess of the latter over last year of 421.195 barrels. Excess of the latter over last year of 421.195 barrels. Excess of the latter over last year of 421.195 barrels. The receipts of both barley and oats, by rail-road, have more than made up the tailing off—orm equal to 3,495,187 bushels. barley, 220,751 do; oat, 516,135 do. T. e increases receipts of both barley and oats, by rail-road, have more than made up the tailing off in the supply by canal.

For house the week at over two millions of bashels. Three figures were carried into the yearly return and were donoties nearly two millien bushels in excess of the actual recei ta.

The somes of tables have been carefully compiled, and can be relied up a as being semi-official:—

THEAS DEET BILL, STO.

[From the New Orleans Picayuna, Fob. 5.]
The stamming Mexico, Captain John Y. Lawiess, from Indianola and Galveston, arrived early this morning.

By this arrival we have Anstin papers to the 28th cut, San Antenno 29th uit, and Galveston 24 inst., and a number of others from interior and coast towns. The news is interesting.

The State Coavention of the American party mot in Anatin on the 21st ut., and adjourned on the 22d. Defeates representing sity, three count is were present. Col. John Caldwell was elected President.

A letter from Austin to the Galveston News cays:—A platform was adopted embracing the onief features of that put forth by the same party from Pullidelephus last summer, with some additions and amendments. It fixes twenty-one years as the been of naturalization, gives the Catholic tests a cort of cold shoulder, and "pretermins" on the question of the rigate of the Soutz as ragards the spread of slavery. It says comething a not from its perosection, &c., but as I have only heard the document hastily read, I cannot fully state its points. Mr. West, of Anatin, moved to amend, by luserting, on the sub ect of Kausas, the theorgia station, out he was word to war. There were a numour of classification adopt the fighting dortino; and although they ounger pollucians urgsu that no other policy would win, they were not to be moved. The convext on fire electors for the State at large—R. H. Taylor, of Fannin, and J. A. Wilcox, of Bextr. Electors for the East—J. W. Flannagan, of Runk; for the West—Thos. W. Black, of Leon. It nominated for Attorney General, Wan stessman, of Runk; to comprehence, R. S. O.R. hanson, of Belt; and for Fressurer, W. A. Tacllon, of darrison. I do not think there were force than planty or activities concrets with the Democratic Convention, in which there were about two hurd ed delegates. In fac, the American I do not think there were a more of the first on the field, and many were offended at two hurd ed delegates. In fac, the American meeting was not satisfact

Legislature adopted a joint resolution to adjourn on the state tost, until the first Monosy in July next.

The Gaivestin Nors, of the To it at., has the following paisgraphe:—

The element from Houston last hight brought down a nonner of deregates to the Grand Looge 1.0.0. F. of the State, which ho ds the annual communication next week in this city. Among others we notice the arrival of Grand Masters Liken, Lockett and Rountree. They inform us that the roads in the country are in a dreasful condition and almost impassable, and the probability, therefore, is that the attendance to the Grand Lodge communication from the country will be limited.

The Legraph is it opinion that Gen. Houston is not eligible to the Presidency, from the fact that he has not been a recicest of the United States for fourton years, as required by the constitution. Ince editor says he left the United States and went to a foreign government, and that it is not yet fourteen years a reident within the United States."

The following let er, received from Austin, brings the intelligence that the bias accepting the act of the last Congress for setting the dob of Trans has finally passed. It only wants the Governor's signature, and as he recommended the acceptance in his animal message, the oit may be considered as having occome a law, and this most versitions question finally setties. It is a subject for general cregatalia non, not merely to the suffering claimanth, but to the State of Trans, which has removed a great represent in the runner was a great observed to her advancement, and to the whole country, which has been deeply interested in the honorable adjustment of their continuous processing the House, once it is a final hand it was deeply interested in the honorable adjustment of the controverted points:—

On Monday leaf the House of Represents twee passed the Seriate bill accepting the United States bill of \$7,750. Other, it is payment to these controverted points:—

The residention it was firally passed as above at tack, but not withou

Miscellaneous and Disasters.

The steamship Augusta, Capt Lyon, from Savannah, arrived early yesterday morning. The purser has our thanks for

The steamship Augusta, Capt Lyon, from Savannah, arrived carly yesterday morning. The purser has our thanks for papers.

The steamship Roanoke will leave this afternoon, at 3 o'clock, for Norfolk and Petersburg, the breaking up of the ice in James River enabling her to resume her trips. She will no doubt carry a lwrge cargo, as supplies of every kind have been well nigh exhausts do by the long continued blockade.

Launchad—The abip Kitty Simpson, belonging to Mesars Simpson Brothers, was successfully launched yesterday from Mr A C Bell's yard. We condited to state yesterday, in giving her dimensions, that she was 700 tons burthen.

Through toformation received, it was yesterday reported that the wereking selve Ringgold has gons to the brighouth, selver a figuran NJ. The R is at Quegue; and it was probably the Splendid that went down to Squan yesterday.

Shir Nonfantit, at Delaware Breakwater, from Liverpool, salled Dec 2: was towed to Tuskar. In 12 days made to 40, in fine weather, when she encountered a succession of heavy westerly gales, that so damanged two suits of heavy sails that they were reduced to one close received to pasall for Eures weeks, until she had ran south (to lat 24) for mild weather, to repair sails. In at 24 had 35 hours' trade winds, after that had weaterly winds the remainder of the passage. The K has been for three weeks within 260 miles of the Opas. She antistand no other damage but loss of sails. Capt Dune has been ill during the whole passage, not being able at any time to be on deck.

Shir Louis Napolson (of New York). Chase, from Baitimore for Liverpool, is reported diamasted off the Western Islanda and is no doubt the Am ship, reported Jan 12, off St Mtchaels, under jury massa, making for Fayai.

Base Farno-Werecking schooners Ringgold, and Heary W Johnson, which left here on the Sist un for the bark Echo, ashore at Quogne, Lil, were detailed at Fire Island to 8 days by unfavorable weather. They arrived at the wreck and put out their oil casks on Sunday last and if the wind and se

On the 4th inst, let 42 l8, ion 70 08 fell in with soft dames. Buiching, from Bath for Boston, with salls blown a way, and is a sloking condition. Took of the captain, ore want for each save in all, and hought them to the port. Whos has seen, the soft appeared to be selling fast.

Bark Arkelin, which put fits St thomes let last, leaking badly, was within 200 miles of New York on the six of Jen. In the gale of that day all was strained no budly that it required all hands at the pumps, night and day, to keep ber alical. It was expected each memorial that is would bunder short of provisions and water, salls in rags and the crew short of provisions and water, salls in rags, and the crew farming it; exhausted, that warden been away for at Thomas For the ton days before reaching that most a half barred of rice as due to raise and such rais as could be caught was their acts as demanded.

Into Q Fight A electraphic despotts from Capt Duniet

For the too days before reaching that most a half barred of rios as such rate as could be caught was their acis accessance. The vessel will probably be condemned.

Land G Brant—A telegraphic despitch from Capt Daniel Bunce, at Heldar, annuances the test feet of the bris G does and developed the such as a such as the condemned.
